## Why Foam Soaps Are Better Than Lotion Soaps

Independent research shows that Deb Stoko foam soaps require 36% less product for an effective hand wash compared with traditional liquid/ lotion soap. The research also reveals that using foam soap instead of traditional lotion/ liquid soap reduces:

- Water consumption by up to 45%
- Product consumption and chemical waste
- The energy required to heat washroom water
- Packaging waste

# Deb Stoko Support

For any organisation, the implementation of skin care practices that are collectively followed and universally understood is an ongoing challenge.

Therefore, to help with this process, Deb has created a unique education and audit support programme available to all customers of the Deb Stoko Range.

## Ongoing Site Education & Awareness

To help improve and maintain skin care standards, we provide a number of communication tools to support ongoing education and awareness.

## Pre & Post Installation Audits

Our team of experts conduct pre and post installation audits to ensure the correct Deb Stoko products and dispensing systems are selected and installed, providing complete customer satisfaction.

## Annual Audits

Our team of experts are also able to conduct annual audits to provide a maintenance check of the installed Deb Stoko dispensers, review the products in use and introduce any new products and education that can provide additional benefits for the customer.
